

## Kim's Game

Kim's Game is a great game to play over a video link. All you need is a tray, a tea towel and some everyday objects.

Show him/her the objects you have collected, one at a time. Discuss them, e.g. colour, function, shape, who would use it.

Put them all on the tray, cover with the Tea Towel then take one away. Uncover, and then try and guess what is missing.

Give clues if needed. e.g. It's red, you can drink from it, it lives in the kitchen cupboard.
